Important Land Sales.

Monday has was Sale day, and such a crow of civizens thronged our public square as had not been seen thereon, perhaps, since 1861. The ad vertised sales of immense quantities of land by the Commissioner in Equity and Orlinary drethis large crowd bither. Prices of land have very visibly improved since sale-day in Detober.

The somewhat famous Hatcher land, lying be t veen this and Aiken, divided, if we mistake not into two tracts, sold as follows: Rev. Ggo. BELL being the purchaser: One tract of 313 acres for \$3625 : one tract of 322 acres for \$4800. A tract of land, lying near the Pine House, be

A Sabling Convenience.

In another column will be found an advertise ment headed CARRINGTON & Co's Beneral Pur chasing Agency. Now, the existence, let alone the sublime convenience, of this wonderful Company, is scarcely known in our part of the world Therefore we exhort every one to read and study this important advertigement. Never in any age fered to the public.

No matter what one wants, be it greator small worth one dollar or one hundred thousand del'ars' and it can be procured in America or Europe, Le has only to write a letter to CARRINGTON & Co., No. 30, Broadway, New York, se ting forth his desires, and containing the requisite funds; and s) as soon as time and space will permit, the article or articles ordered will be delivered, if be live in a railroad town, at his door; or if in the country, at the nearest railroad depot.

And our people will not doubt the respectability or reliability of this great association, when we tell them that its Vice President is Col. JAMES GARDNER, that Augusta man of the old and high regime, for so many years past editor and propri etor of the Constitutionalist, also of the old and high regime. There are but few grown men in our District, we imagine, who do not know Col. JAMES GARDNER of Augusta, and of the Constitutionalist, either personally or by reputation.

And now we again urge our readers to con this advertisement, and acquaint themselves with the meaning and character of Carmington & Co.'s General Purchasing Agency. How is it Done?

We learn that a House in Charleston, that of Messrs, Lownbes, Mikkel & Co , No. 12, Boyce's Wharf, have made arrangements, by which they forward produce North, free of sleipping fee, and make an advance on the same, of three fourths market value in that City. On large coosignments, they will make an advance of secen eighths of market value there. This is the most substantial sign of reconstruction we have yet seen. Enterprise! Enterprise! We take pleasure in calling the attention of our readers to Mr. FLEMING's card. See it over there on another column, and read the following notice of this estimable gentleman, which we cull from the Constit tionalist:

We know the gentleman well, who of-fers his services to the planting community, and we also know him to be one of the most skillful and successful planters in the State. He has had large and extensive experience, and has all the clements of character necessary for the proper and lucrative management of freedmen, having last year and this succeeded in a very remarkable manner, in the management of large number of these people, and we cordially recommend him to those who are desirous of availing themselves of Srst suse planting capacity.

The Police Affair in Baltimore. The difficulty which has been trawing for some weeks past in Baltimore, between the Radicals and Conservatives, seems to be coming to a head. Since the end of the war, the Bradicals of Maryland, who have long had the power, and used it unscrupulously, to keep that State in anurchy and confusion, adopted through their Legislature a Police Bill, by one clause of which any Police Commissioners guilty of official misconduct, may be removed by a concurrent vote of the two II uses of the General Assembly, or by the Governor during the recess of the General Assembly. This Bill was adopted when Swann, the present Governor, was a Radical, and was simed at all Commissioners who, should not be sufficiently servile to the Radical party. Since that time, Gov. Swann has evinced considerable symptoms of grace and decency by veering round and becomng a supporter of the President's policy. And neanwhile the Radiculs have fallen into their

At late elections, by the unprincipled machina tions of the Baltimore Police Commissioners. Democrats were not allowed to vote or if their votes were suppressed. Indeed the proceedings of the Commissioners were so openly nefarious, that they were accused by the Conservatives, and duly arraigned before Gov. Swann, who, the General Assembly not being in session, has the power to remove them if he should see fit.

The matter has been investigated by him at guilty Commissioners. During the investigation, the feeling between Radicals and Conservatives has been intensely fierce and bitter. The former have evinced the unmistakable purpose of resisting, by force of arms, the removal of the Commissioners. The Governor has been countly resolute, and is said to have called in troops of the regular army to put down any resistance to his orders. This matter has caused great excitement throughout the country, and may yet end in civil strife and bloodshed. The status of the affair, according to the latest telegrams, may be found on another column.

The Act for the Establishment of District Courts Declared to be Unconstitutional.

In the Laurensville Herald, there is a report of the trial of Au ery, for horse stealing, at Abbeville, before his Honor, Judge Munro, in whichthe following statement is made :

"The question was raised, on the first day of th: term, as to the jurisdiction of the Superior Court since the creation of the District Courts, and the constitutionality of the Act creating the same. His Honor reserved his opinion on the point until Tuesday merning, when he armonged that the Act, in his judgment, creating District Courts, was unconstitutional, "in so far as it conferred upon an Inferior Court jurisdiction in crimina cases, where whites were parties accused;" that the District Courts were restricted to criminal esses where the accused was a person of color His Honor also ex, ressed much doubt whether his own Court (the Superior,) could assume the jurisdiction of any criminal cage in which the acused was a person of color

The Judge was evidently perplexed—ignorant of his own authority, or rather ignorant of what. others intended his authority should be, and we asked ourself the question-what matter of logistation have we, where laws are made that ou judges themselves cannot understand?

A comparison of the District Court Bill with the new State Constitution, as accopted by the Con vention, will show the grounds upon which Judge Munro's opinion is based.

Twenty Instead of Thirty.

In our columns to-day, as for weeks part, wil be found the advertisement of that most deservedly popular institution of learning, the Due West Female College. But as regards one item in said advertisement, we have been making a considerable mistake. The price, per session, for lessons on the piano is Twenty Dollars, instead of Thirty, as we have heretofore inadvertently published it. And speaking of Due West Female College reminds us of a pleasant fact which has lately come to our knowledge : That Rev. J. I. Bonnen, President of the College, and Editor of the Due Wes Telescope, a paper so popular and useful in former days, is about to resume the publication of the latter, under the name of The Associate Reformed Presbyterian. Although it is two months before the end of the . year, still the country is swarming with idle freedmen and freedwomen-nimlers and objectlessslothful and dirty. In Washington County, Texas, on the 18th of August 1866, in the Eighteenth year of his ago, after nine days illness of Typhoid Fever, young WILLIE GRIFFIN departed this life; WILLIE GRIFFIN, whom all in Edgefield knew so well; the manly and amiable youth whose life reemed so full of hope and promise. A kind and devoted son, an affectionate brother, sincere and reliable friend, he sustained the do mestic relations of life in an exemplary way; and the tenor of his whole life was well calculated to embalm his memory in the hearts of the many who knew him and loved him.

In tender love the Good Shephord may bring us some near way that leads quickly to the pearly gates, and then, with Heaven, and our treasures that have gone before, this troubled dream of life will seem "but a watch in the night"—" a tale that is told."

A FRIEND OF HIS FATHER Dr. WM. HILL, of this District, died at Glenn Springs, 26th ult., aged thirty-eight years.
Dr. Hill had for years been affected with Constipation of Liver, and his medical friends had often advised him to travel, or try the virtue of mineral waters; but the state of the country, to-gether with the duties of his profession, prevented his doing so until it was probably too late to re-

ceive any permanent benefit

Bland and genial in his nature, firm and confiding as a friend, the subject of this notice was much beloved and este-med throughout the circle of his acquaintance.
